Our Claims Expertise

When you are insured by AIG, you can have confidence that we are here to help you recover quickly if the unexpected happens. Our experienced claims professionals have in-depth knowledge and expertise in claims handling for small and medium enterprises as well as large multinationals.

Below are just a few examples to illustrate how AIG's Commercial General Liability insurance protects you against the unexpected.

Public Liability

A customer at the insured's venue slips on liquid which was spilled on the floor but has not been cleaned up, leading to injury. The customer sues the insured for the injury.

Construction Liability

During a renovation, a contractor demolishes a wall which bursts a water pipe, flooding the apartment and causing leaks and damage to the apartment below.

Product Liability

A customer at a restaurant becomes ill a few hours after consuming their meal and needs medical attention. The restaurant receives multiple calls from other customers with the same illness and tracks it to a batch of mayonnaise which contained salmonella.

Exported Products

The insured's clothing lines are exported to the US as part of a trade initiative. The clothing was treated with a harmful chemical which caused skin burns for a number of people who purchased the clothing. The insured now faces a lawsuit in the US.

Scenarios are purely for illustration purposes. Policy coverage will depend on the policy terms, conditions, exclusions, and the factual circumstances of the particular claim.
